Quick Start Guide

1

Insert the battery.

2

Insert a card.

With the card's label facing toward the back of the camera, insert it into the card slot.

3

Attach the lens.

Align it with the red dot.

4

Set the lens focus mode switch to <AF>.

5

Set the power switch to <ON>.

6

While holding down the center of the Mode Dial, set it to <A+> (Scene Intelligent Auto).

7

Focus the subject.

Aim the viewfinder center over the subject and press the shutter button halfway to autofocus.

8

Take the picture.

Press the shutter button completely to take the picture.

9

View the image.

The captured image will be displayed for 2 sec. on the LCD monitor.

● The ★ on the right of the function indicates that the function is available only in Creative Zone modes.

● Number of Possible Shots with Viewfinder Shooting

Temperature	At 23°C / 73°F	At 0°C / 32°F
Possible shots	Approx. 1090 shots	Approx. 980 shots
